

Duct Grade

Unshielded 1 Pair 16AWG 600 V

Application

Unshielded 16awg single pair cable for use in instrumentation, security, data and audio applications where protection against electrical interference is not required. This cable uses outer jacket materials suitable for external and duct grade installations. Not suitable for direct burial.

Cable Design

Conductor	Stranded tinned copper wire
Insulation	SR-PVC
No. of Pairs	1 (1x2x16AWG)
Outer Jacket	High Density Polyethylene (HDPE)

Specification

Part Number	Formation No. of Pairs	Nom. Ø mm [±10%]	Weight kg/km
6101602THD	1 x 2 x 16 awg	7,0	51

Electrical Characteristics

Nom. Capacitance (cond./cond.) pF/m	Nom. Conductor DC Resistance Ω/km	Nom. Inductance μH/m
108	14,7	0,56
